

Simple ESRI Map

Written by Administrator

Wednesday, 06 July 2011 00:00 - Last Updated Wednesday, 22 February 2012 20:54

You can easily create a **Simple ESRI map** using the layer from [ESRI's server](#) . Alternatively, the **Google Satellite** layer can be selected.

{WISroGIS map_id='23' ~}

The map uses a custom layer to access a **map cache** provided in spherical mercator by **ESRI**. Please refer to [WISroGIS Tutorials](#) for full details.
